🎯 CAREER OBJECTIVE

Detail-oriented Computer Science student with hands-on experience in Data Analysis, Machine Learning, and Natural Language Processing. Skilled in building dashboards and intelligent systems. Seeking a Data Analyst / Data Science internship to apply analytical skills and deliver impactful insights.

🎓 EDUCATION

Bachelor of Technology (Computer Science & Information Technology)
MAHATMA JYOTIBA PHULE ROHILKHAND UNIVERSITY,BAREILLY (U.P.) | 2022 – 2026

💻 TECHNICAL SKILLS

- **Programming:** Python, SQL
- **Data Analysis:** Pandas, NumPy
- **Machine Learning:** Scikit-learn, Classification Algorithms
- **NLP:** Text Processing, Vectorization, Auto Tagging
- **Visualization:** Power BI (Dashboards)
- **Tools:** Git, GitHub, Jupyter Notebook

🚀 PROJECTS

🔷 Auto Tag Generator (NLP Project)

- Developed an NLP-based system to automatically generate tags from text data
- Applied text preprocessing techniques like tokenization and stopword removal
- Used feature extraction methods to identify relevant keywords
- Improves content categorization and search efficienc

🔷 Sales Dashboard (Power BI)

- Built an interactive dashboard to analyze sales performance across regions and products
- Visualized KPIs such as revenue, trends, and product performance
- Enabled data-driven decision-making using dynamic filters

🔷 Sentiment Analysis Dashboard

- Developed an NLP model to classify text into positive and negative sentiment
- Integrated results into a dashboard for visualization
- Applied preprocessing and vectorization techniques

🔷 SMS Spam Classifier

- Built a machine learning model using Naive Bayes for spam detection
- Achieved high accuracy through optimized text preprocessing

---

🔷 Pose-Based Signature Authentication System

- Developed a biometric authentication system using pose detection
- Explored applications of computer vision in security systems

---

🏆 ACHIEVEMENTS

- Built multiple real-world ML and NLP projects independently
- Strong practical knowledge of data analysis and visualization
- Developed end-to-end projects from data processing to visualization

---

📊 ADDITIONAL INFORMATION

- Strong analytical and problem-solving skills
- Quick learner with ability to adapt to new technologies

- Interested in Data Science, AI, and Business Analytics
- Actively seeking internship opportunities
